can you please forward this email to the Pope, preferably before his visit to Malta next April. I am sending it also to our local Archbishop in case he can do this for me himself:

You Holiness Pope Francis,

I hail from Mosta, Malta, where our ancestors when the village numbered just around 4,000 parishoners most of them poor, managed by year 1860, after 27 long years, to finish the building of a massive church similar to the Pantheon in Rome for the love of our Lady the Assumption to whom it is dedicated. On Thur 9th April 1942 4:40pm (the week after Good Friday of 3rd April) during the Hora Sancta its dome was pierced by a 500kg bomb but miraculously it didn't explode and none of the congregation inside of around 300 persons got hurt or suffered any bruises (it happened that there was an air raid some 10 minutes before and the congregation had taken shelter to the sides). The same church had for 4 days hosted the 24th International Eucharistic Congress 29 years before. I myself used to be a convinced atheist for many years, with intense hatred towards believers whom I used to consider as stupid and lacking culture and knowledge of history, but have in recent years found my faith back in Roman Catholicism - when you are with your back against the wall you can be the greatest atheist for you by instinct revert to God for help.

To come to the point, I look forward to welcome your visit to Malta next 2nd and 3rd April which coincides with 2 special anniversaries:

- 2nd April 2022 is the 17th anniversary of the death of the Pope Saint John Paul II on 2-Apr-2005 (note the number "17"). In the same April 2005 my father was in hospital on the verge of dying and had prayed this Pope (despite being an atheist at that time) and he (my father) was saved and managed to live another 3 and a half years.

- 3rd April 2022 (note the same 3rd April mentioned in the paragraph above) is the 1989 anniversary when most probably our Lord Jesus Christ was crucified on 3-Apr-0033. Number 1989 is divisible by the mentioned "17", namely $1989 = 17 \times 117$, and guess that "13". "3". 201"3" or 13-Mar-2013 was the beginning of your Papacy! Also on this day of 3-Apr but in year 2003 had myself done something very scary: I was angry with God for not hearing my prayers and for the injustices I was suffering that I went to [REDACTED] I had collected in front of a crucifix considered miraculous, the Ta' Giezu crucifix in our capital Valletta. When back home, I had a common kestrel (a bird of prey, slightly smaller than a hawk) which when went to feed her began all of a sudden screaming, it had been at home for some 1 and a half years but completely mute never screamed, and from this date onwards it continued to scream when in my presence, I next to her, and nothing could stop her not even when I took my cat near her. At that time I didn't believe, I thought to myself that it began screaming because I had done something good, said God merited what I did, I used to consider God as the source of all injustices. I only converted back to Christianity many years later when my beloved cat died and somehow recounted the incident. God maybe didn't and never heard my prayers but once I understood how this God works, then it was a completely different story. Blessed Carlo Acutis would have for sure been happy to recount him the complete story had he been still alive.

To come back to the point, I find these dates and numbers above to be no coincidence at all. In the same way say celestial bodies are governed by complex mathematical equations, chemistry by the periodic table, etc., I also think that God tries to reveal us of his presence by making some things happen on specific dates. Numerology further reinforces my faith in Christianity, for when I try to interpret why something happened on a particular date, say year 2022, it is after all year 2022AD, 2022 years since traditionally reckoned year of the birth of Jesus, so there is this connection with our Lord, the proof that there must for sure be something true with Christianity which sets it apart from other religions and helps me keep strong in faith despite the so many misfortunes and lies I had to suffer over the years (if you google my name and surname, pops up the 1st one my website full of evidence and documents of injustices and abuses I suffered which the authorities do not intervene because they concern abuses made by persons in high positions and their friends of friends, impunity galore).

To finish, I ask you to once in a while remember me in your prayers. I ask in particular if possible to pray that truth prevails in my case, my name be cleared, and those who committed abuses and injustices on me one day will have to face justice. In the same way that Islam (Mohammed) is the Satanic version of Christianity (Jesus), Psychiatry is the Satanic version of Medicine, for in Psychiatry the stroke of a pen and false evidence all that is needed to find yourself maliciously labelled as a mental and made voiceless without any dignity. I cannot come to mass you intend to celebrate on 3rd April for I am

still innocently locked after so many years. But I will for sure be seeing you on TV that day. If you deem fit to reply to this email, you can do it in Italian, I understand it quite well but am not fluent enough to be able to write speak it.

Yours sincerely,

Nicholas Grech
From Male Ward 7, Mount Carmel Hospital, Attard, Malta.

Dear Nicholas,

His Grace the Archbishop Mgr. Charles Scicluna asked me to write to you, on his behalf, to thank you for the email you sent him addressed to His Holiness Pope Francis.

His Grace told me to assure you that your email will be forwarded to the Holy See.

The Archbishop sends you his pastoral blessing and promises you his prayers.

God bless you.
